***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 2, 5-12, and 16-20 are rejected under 35 U.S.C. 102(b) as being anticipated by Gotoh et al. (hereinafter Gotoh – US Pat. No. 6,278,671).

Regarding claims 1, 2, 5-12, and 16-20, the rejections applied to claims 1, 2, 5-12, and 16-20 in the previous Office Action, mailed on 1/24/2007, are herein repeated for the same reasons (see Response to Arguments).

***Claim Rejections - 35 USC § 103***

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 3, 4, and 13-15 rejected under 35 U.S.C. 103(a) as being unpatentable over Gotoh et al. (hereinafter Gotoh – US Pat. No. 6,278,671).

Regarding claims 3, 4, and 13-15, the rejections applied to claims 3, 4, and 13-15 in the previous Office Action, mailed on 1/24/2007, are herein repeated for the same reasons (see Response to Arguments).

***Response to Arguments***

5. Applicant's arguments filed 3/26/2007 have been fully considered but they are not persuasive.

Applicant, on pages 6 and 7 of the Remarks filed on 3/26/2007, argues that Gotoh does not disclose recording the two sets of information on two separate layers in the recording medium. Examiner respectfully disagrees. Examiner asserts that the barcode is recorded on a separate layer from that of the data as illustrated in Figure 2D (note that the barcode data is recorded on recording layer 803 while other data is recorded on layer 802). Examiner would like to note that the separate layers are also depicted in Figure 6 (shown as elements 802 and 825), which would mean that the barcode is recorded on layer 802 and the data is recorded on layer 825.

***Conclusion***

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
